KRITUL VERMA

FULL STACK DEVELOPER

mekritul.netlify.app

SUMMARY

A skilled Full Stack Developer with expertise in Java, JavaScript, HTML, CSS, PHP, MySQL, and frameworks such as Bootstrap and Tailwind. Proficient in developing and maintaining web applications, with a strong understanding of front-end and back-end technologies. Experienced in creating responsive and user-friendly interfaces, as well as optimizing website performance. Adept at problem-solving and collaborating with cross-functional teams to deliver high-quality projects on time.

PROJECTS

Portfolio Website

- It is a portfolio website made using HTML, CSS and JavaScript with the help of Bootstrap, ensuring that it looks good on devices of all sizes, from mobile phones to desktop computers.
- Included a range of legit files, such as project descriptions, resumes, and other relevant documents, to showcase skills and experience and ensured that the website is easy to navigate, with a clear and intuitive menu system and well-organized content.

Spotify clone

- Developed a user-friendly interface using JavaScript to mimic Spotify functionalities
- Utilized callback functions to enable smooth communication between different parts of the application
- Optimized design for various devices to provide a consistent music streaming experience.
- Implemented a sleek user interface for seamless music playback and audio element
